Personal Touch Communications employs a highly skilled and long-tenured staff of agents who receive specialized training in responding to medical calls. Our supervisory staff has strong experience dealing with medical clients too. **Personal Touch** has earned a reputation for excellence within the medical industry. The company currently serves a number of recognized managed care facilities in addition to many individual practices. When it comes to meeting the needs of your patients, you can't afford to compromise. They're your patients, it's your practice, and it's your call!

Let **Personal Touch Communications** be your prescription.

If you use a voice mail program...Does your insurance carrier recognize the voice program under the mal-practice policy as a total viable source of messaging?
